

THIN & CLEAR

Trivex + Antiglare

Clear vision all the way to the edge of the lens. Scratch resistant and durable.

FUN IN THE SUN

Polycarbonate + Polarized

Available in your choice of grey or brown in a thin, scratch-resistant, impact-resistant lens material.

ALL PURPOSE

Polycarbonate + Transitions + Antiglare

A lens with lots of bells and whistles! Scratch- and impact- resistant, with no-glare and Transitions that get dark when you go outside.

THE WORKS

Trivex + Transitions + Previncia AR

Thin, scratch-resistant lenses with great optical clarity, coupled with Transitions that get dark when you go outside and Previncia anti-reflective coatings that block out harmful blue and ultraviolet light.

TECH JUNKIE

Single Vision Lenses with a Hint of Progressive + Previncia AR

If you spend a lot of time staring at computer, tablet, or phone screens, then you probably experience some eye strain by the end of the day. This lens gives you a little boost of prescription to give your eyes a break, and also includes the Previncia AR to protect your eyes from over-exposure to harmful blue light.

LATEST & GREATEST

Digital lenses with Previncia AR

Digital lenses are the thinnest, clearest, most advanced lens option available. Great for higher prescriptions and people who enjoy the clearest peripheral vision.

JUST THE BASICS

Plastic Lenses, No Bells or Whistles

A no-frills, basic option good for a backup pair or just for occasional use.
